

Component: Property Management

Contribution to Department's Mission

Provide management of Executive Branch assets.

Core Services

- State Property Accountability:
- Assist agencies to maintain the most accurate and effective management system for property control.
- Provide guidance and direction including training, development of procedures, and accountability reviews.
- Provide cell phones for military personnel.
- Maintain a billion-dollar statewide inventory system.
- Develop standardized property accounting procedures to provide physical count and evaluation of personal property assets.
- Assist agencies to provide accurate inventory reports for the State's Annual Financial Report, Risk Management, Emergency Services, the Legislature, and other interested parties.
- State Surplus Property Disposal:
- Coordinate statewide reutilization efforts to locate and transfer available excess property items to state agencies.
- Direct agency property trade-in requests, disposals and destruction of state owned personal property.
- Store, display, and market excess property items.
- Conduct cost effective public sales of excess and obsolete personal property generating an optimum return of revenue to the state.
- Collect and deposit sale revenues, and disperse proceeds to appropriate state accounts.
- Encourage and enhance recycling efforts.
- Federal Surplus Property Program:
- Acquire, warehouse, allocate, and distribute donated surplus property to eligible program participants.
- Reissue usable surplus property by direct transfers within rural areas of Alaska.
- Assess and collect service fees sufficient to fully cover the cost of operations.
- Execute and administer agreements pursuant to eligibility, acquisition and utilization of property as required by federal law and the State Plan of Operation.
- Market benefits of available assistance to prospective client organizations to achieve increased statewide participation.
- Train and assist participants to locate and obtain available property.

Major Component Accomplishments in 2012

- Started using electronic auctions to replace outcry auctions & state wide seal bids.
- Expand the electronic auctions state wide to include all state agencies.
- Distributed federal property with original acquisition cost of \$3,633.372. Collecting service and handling fees of \$184,817, resulting in significant savings to our qualified recipients.
- Re-issued over \$70,000 in state surplus property among departments.

Key Component Challenges

Efficiencies - Improve operational efficiency, customer service and cost effectiveness by continuing to explore ways to minimize outlays and expenses and eliminate unnecessary redundancy.

Auctions and Marketing - With fewer State Equipment Fleet assets at our auctions, they are not as desirable for participants. Without vehicles to draw customers, General Services will need to find creative ways to successfully market and display other assets. Auctions are costly (i.e. auctioneers, print advertising, catalogs, travel to Fairbanks, overtime, cost of travel for staff and lost sale barn days preparing for auctions and a limited customer base). A more efficient program needs to be implemented for building a larger customer base for surplus items.

Significant Changes in Results to be Delivered in FY2014

Electronic Auctions - Use electronic auctions throughout the year and not restricting auction activity to just five times a year during certain time periods.

Federal Property Sales - These revenues are generated by service and handling fees charged to qualified donees for federal surplus property including supplies, office equipment, furniture, airplanes, vehicles, generators and other heavy equipment. Federal law P.L. 94-519 established criteria for the transfer of this property.

AS 44.68.130 and AS 37.05.500 authorizes the deposit of these revenues into a special fund within the General Fund to offset costs for the program. This special fund provides funding for all direct costs of operating the Federal Surplus Property Assistance Program and has been consistently maintained as self supporting.
