

MULTIFUNCTION COPIERS AND RELATED SOFTWARE

NON-MANDATORY FOR STATE AGENCIES

NON-MANDATORY FOR POLITICAL SUBDIVISIONS

The State of Alaska is an active member of the Western States Contracting Alliance (WCSA) which leverages the buying power of 15 western states to offer exceptional pricing for multifunction copiers and related software.

The contracts, available to state agencies and Alaskan political subdivisions, are divided into five groups, distinguished by copier type. Each group is divided into multiple segments, distinguished by copier output speed. The groupings are listed below and they each include a list of the manufacturers and their contract award number.

These are manufacturer based contracts, presented here in alphabetical order but there is no required ranking and agencies are free to utilize whichever contract they choose without additional competition. The manufacturer names listed below are hyperlinked to take you to the manufacturer's WCSA website for the State of Alaska. The websites provide pricing and details about buying a copier.

All purchase orders should include the appropriate contract number listed below and the state price agreement number: **1715**.
