 The previous title does not have any place for both the buyer and seller to disclose the mileage. The empty weight of the vehicle is 12,000 pounds or less. The vehicle is less than 10 years old.* 						
	DMV will record the mileage, if known, for vehicles over 10 years old. It is not a requirement of the sale.					
To co	onvert kilometers	to miles, use the fo	llowing formula	a: ki	lometers x .62 =	_ miles

If the exact reading is unknown, the reading to the nearest 1,000 miles is acceptable. Please do not guess, as this cannot be changed once you make the statement.
