

The following provides a list of custom MCC group templates that were created by USBank for the State of Alaska. These MCC Groups (MCCG) can only be assigned to Managing Accounts for OneCards, not CTS accounts. For allowable CTS Account Groups, see the document [USBank Allowable MCC Groups for CTS Accounts](#).

The Template IDs referenced in this document can be assigned OneCard Managing Accounts, which in turn will allow the account to charge to the MCCs codes included - as shown in the last column. There are some MCCs that are not included in the range(s) listed identified as "except".
