

NOTICE OF INTENT TO AWARD A CONTRACT

Department of Administration
 Division of Administrative Services
 Tenth Floor - State Office Bldg.
 333 Willoughby Street
 P.O. Box 110208
 Juneau, Alaska 99811-0208

THIS IS NOT AN ORDER

DATE ISSUED: July 1, 2011

RFP NO.: 2010-0200-9388

RFP DEADLINE: October 15, 2010

RFP SUBJECT: Statewide Administrative Systems Replacement Project

PROCUREMENT OFFICER: Staci Augustus

SIGNATURE:

This is notice of the state's intent to award a contract. The figures shown here are a tabulation of the offers received. The responsible and responsive offeror whose proposal was determined in writing to be the most advantageous is indicated. An offeror who wishes to protest this Notice of Intent must file the protest within ten calendar days following the date this notice is issued. If the tenth day falls on a weekend or holiday, the last day of the protest period is the first working day following the tenth day. **The offeror identified here as submitting the most advantageous proposal is instructed not to proceed until a contract, or other form of notice is given by the contracting officer.** A company or person who proceeds prior to receiving a contract, Contract Award, or other form of notice of Award does so without a contract and at their own risk. AS 36.30.365.

Offerors	Responsive	Total Score	Most Advantageous
CedarCrestone	Y	617.79	
CGI	Y	988.36	@
CherryRoad Technologies	Y	376.27*	
CIBER	Y	668.33	
Tyler Technologies	Y	353.18*	

*At the conclusion of the 2nd Filter, these proposals were deemed not susceptible for award and did not advance to the Interviews and Demonstration scoring components.

LEGEND: @ -- MOST ADVANTAGEOUS
 Y -- RESPONSIVE PROPOSAL
 N -- NON-RESPONSIVE PROPOSAL

SUMMARY

CGI's proposal was selected as the most advantageous and invited to the Pre-award phase which was successfully completed.

To assist in understanding the evaluation process, a summary is attached to this Notice of Award. All procurement related documents have been posted to the Division of Finance's project website: <http://doa.alaska.gov/dof/erp/index.html>

STATE OF ALASKA
DEPARTMENT OF ADMINISTRATION

ADMINISTRATIVE SYSTEMS REPLACEMENT PROJECT

RFP 2010-0200-9388

EVALUATION PROCESS
SUMMARY

The purpose of this document is to describe the evaluation process the State undertook relating to RFP 2010-0200-9388.

Procurement Activities 2010-2011

Summary

- RFP 2010-0200-9388 was issued on August 2, 2010
- Nine amendments were issued
- 116 questions from potential Offerors were answered after the RFP was issued (34 questions were answered under the DOF website's FAQs prior to the RFP issuance)
- Deadline for receipt of proposals was 1:30pm, October 15
- Received five proposals, DGS contracting officer and procurement officer reviewed for minimum responsiveness; all were responsive and forwarded to the PEC for evaluation
- PEC completed evaluation on October 22
- Procurement officer reviewed proposal score sheets and verified scores against the electronic spreadsheet-October 22-26
- Three vendors were determined to be susceptible for award and, on 10/27/10, were invited to proceed to Filter 3, Client Demonstrations and Interviews
- Client Demonstrations were held November 3, 4, and 5
- Interviews were held December 1, 2 and 3
- Procurement officer reviewed demonstration and interview score sheets and verified scores against the electronic spreadsheet-December 4-20
- Procurement officer notified the Pre-award vendor-December 21
- January-June 2011-Pre-award phase

Proposal Evaluation Committee

The PEC was comprised of a cross section of State employees to represent the different administrative functional areas:

Brook Larson	Finance Officer, Department of Revenue
Cheryl Shakespeare	Accountant, Division of Finance
Dan Spencer	Administrative Services Director, Dept. of Public Safety
Marlys Hagen	Procurement Specialist, Department of Natural Resources
Stacie Bentley	Human Resource Manager, Division of Personnel
Tom Mayer	Contracting Manager, Division of General Services

Evaluation Process

The State evaluated proposals using a step-by-step approach as stipulated in the RFP. The table below presents the overall evaluation criteria and the associated filters that were used to identify the best value Offeror, based on the State's overall evaluation criteria. At the end of each filter, only proposals that met the criteria identified in the filter advanced to the next filter and continued to be evaluated. The State invited one Offeror to participate in Filter 4.

Filter	Points	Percent	Section	Evaluation Criterion	Scoring Method
1	Pass/fail	n/a		Administrative Requirements	
2	50	5%	7.03	Past Performance Information (PPI)	Offerors submitted PPI scores using rating sheets completed by prior clients; Raw data used in analysis
	250	25%	7.04	Cost	Offeror cost proposals provided data used to calculate cost score in accord with State guidelines
	200	20%	7.05	Project Approach 150 points-Risk Assessment and Value Added Plan 50 points-Work Plan	Proposals cleansed of names and identifying information and scored by blindly by the PEC
	50	5%	7.06	Strategic Fit Considerations	Proposals cleansed of names and identifying information and scored by blindly by the PEC
	65	6.5%	7.07	Alaskan Offeror's Preference	Qualified Offerors received preference points in accord with State guidelines
3	300	30%	7.08	Interviews	Scored by PEC
	50	5%	7.09	Client Demonstrations	Scored by PEC
	35	3.5%	7.07	Alaskan Offeror's Preference	Qualified Offerors received preference points in accord with State guidelines
4	Pass/fail	n/a		Pre-award Phase	
	1,000	100%		TOTALS	

BEGIN FILTER 1

Evaluation of Administrative Requirements - Pass/Fail

Offerors had to acknowledge a set of statements, conditions, and information by having a duly authorized representative sign Exhibit A. This ensured that each Offeror acknowledged:

1. The original RFP;
2. All amendments issued;
3. Proposal conditions;
4. Disclosure of all potential conflicts of interest (if any exist);
5. Minimum requirements were met;
6. Qualification requirements for all applicable preferences; and

7. Proposal checklist

Criteria for advancing to Filter 2

Administrative Requirements were scored on a pass/fail basis and only Offerors that met all of the Administrative Requirements advanced to Filter 2. There was no limit on the number of Offerors that could advance to Filter 2.

END OF FILTER 1

ALL FIVE PROPOSALS ADVANCED TO FILTER 2

BEGIN FILTER 2

NOTE: As described in the RFP, proposal responses for RFP Sections 7.05, Project Approach (included Risk Assessment and Value Added Plan, Work Plan) and 7.06, Strategic Fit Considerations, were cleansed of the Offeror names and any other identifying material. The cleansed proposals were color coded and provided to the PEC for evaluation. The cleansed proposals, demonstrations, and interviews were evaluated by the PEC and rated, with each PEC member assigning a score of 1, 5, or 10 (with 10 representing an outstanding response, 5 representing an average response, and 1 representing an inadequate response). Responses that were similar or lack dominant information to differentiate the Offerors from each other received the same score. All PEC members' scores were added together and averaged, then the highest scoring Offeror received the highest allotment of points and the others received a statistical percentage of points based on the ratio of their score to the highest Offeror's score and the overall weight assigned to each component.

Evaluation of Past Performance Information - 50 Points

As described in the RFP, the Past Performance Information was not evaluated by the PEC, but instead, the PPI scores were calculated using the reference responses submitted each Software Offeror and the System Implementation Offeror. Survey responders (previous clients) evaluated each question on a scale of 1 to 10. The scores for each question from each responder were added together to determine the question's total score.

The following table presents the PPI calculations.

Blue-CedarCrestone
 Golden Rod-CIBER
 Purple-Tyler Technologies
 Salmon-CGI
 White-CherryRoad Technologies

Raw Score based on responses in proposals

Final Score = raw score divided by 'Best', then multiplied by 'Available Points'

	Blue	Golden Rod	Purple	Salmon	White		Blue	Golden Rod	Purple	Salmon	White	
PPI Final							47.11	44.83	49.81	48.18	43.49

50

PPI FINAL SCORES:

VENDOR	CedarCrestone	CIBER	Tyler Technologies	CGI	CherryRoad Technologies
Final PPI Score	47.11	44.83	49.81	48.18	43.49

Evaluation of Cost - 250 Points

Offerors itemized all costs for application software, system software, professional services by required deliverable, other one-time expenses, and annual maintenance. The cost of each module, regardless of its implementation date, included ten years of licensing and maintenance pricing. Cost was evaluated based on the ten-year total cost proposed by Offerors.

Scoring of Cost

The lowest cost proposal received the maximum number of points allocated to cost. The point allocations for cost on the other proposals were determined through the method set out in Sections 2.13 and 2.14 of the RFP, including applicable Alaskan Bidder Preference as described therein.

COST FINAL SCORES:

VENDOR	CedarCrestone	CIBER	Tyler Technologies	CGI	CherryRoad Technologies
Cost	\$46,862,936	\$34,282,573	\$49,855,031	\$35,684,136*	\$56,763,778
Cost to Points Conversion	182.89	250.00	171.91	240.18	150.99

*After applying the 5% Alaska Bidder Preference

Evaluation of Project Approach - 200 Points

The Project Approach submitted by Offerors addressed scope, requirements, quality needs, risks, and time/budget constraints. The Project Approach provided Offerors an opportunity to demonstrate that they understood the scope and services requested in this RFP and served as a mechanism for the Offeror to express their vision for the project. The Project Approach was comprised of a Work Plan and a Risk Assessment/Value Added Plan (RAVA). The State’s PEC evaluated and scored the Project Approach as two components, 50 points were assigned to the Work Plan and 150 points were assigned to the RAVA Plan. As previously described, Project Approach proposals were cleansed of identifying names or information and other than the color coding, the PEC members did not know who the Offerors were.

Work Plan 50 Points

The Work Plan demonstrated the Offeror’s ability to provide a concise summary of the approach to delivering the requested services. The Work Plan addressed:

1. The Offeror’s methodology for managing project scope, schedule, and implementation of the project.
2. The Offeror’s approach to system initialization, system installation, business process design/reengineering, system configuration, system tailoring, interface design and development, data conversion, testing, and post-implementation stabilization.
3. The Offeror’s plan to transition from existing systems to the proposed systems.
4. The Offeror’s plan to educate and train State employees on the proposed systems.
5. The Offeror’s plan to monitor performance throughout the contract term.

WORK PLAN - PEC MEMBERS’ INDIVIDUAL SCORES

Evaluator	Blue CedarCrestone	Golden Rod CIBER	Purple Tyler Technologies	Salmon CGI	White CherryRoad Technologies
Brook Larson	5	5	5	10	10

Tom Mayer	5	5	5	10	5
Average	5.00	5.00	5.17	9.17	5.83

WORK PLAN FINAL SCORES

The Offeror with the highest raw score received the maximum number of points for the evaluation category. Each subsequent Offeror’s score was divided by the highest score and then multiplied by the maximum number of points available (50) to equal the number of points awarded.

VENDOR	CedarCrestone	CIBER	Tyler Technologies	CGI	CherryRoad Technologies
Raw Score	5.0	5.0	5.17	9.17	5.83
Final Work Plan Score	27.27	27.27	28.19	50.00	31.79

RAVA Plan 150 Points

The RAVA Plan had two major components; a Risk Assessment Plan and a Value Added Plan. The RAVA provided Offerors the opportunity to demonstrate its expertise on the specific project/service being proposed.

Offerors listed and prioritized major risk items it identified as being unique to this service. This included areas that may cause the service to not be completed within budget, or within schedule, generate any financial cost increases, or may be a source of dissatisfaction for the State. Risks included things that the Offeror controls and things that the Offeror does not control. The risks were non-technical, but contained enough information to describe to an evaluator why the risk is a valid risk. The Offeror explained how the Offeror planned to avoid or minimize the risk. All identified risks and solutions were included in the base proposal cost.

The purpose of the Value Added Plan was to provide Offerors with an opportunity to identify any Value Added options or ideas that may benefit the State. Value Added items were not included in the base cost proposal. During the Pre-award Phase the State determined which Value Added items were accepted or rejected.

RAVA-PEC MEMBERS’ INDIVIDUAL SCORES

Risk Assessment

Evaluator	Blue CedarCrestone	Golden Rod CIBER	Purple Tyler Technologies	Salmon CGI	White CherryRoad Technologies
Brook Larson	5	5	5	5	5
Cheryl Shakespeare	10	5	5	10	5
Dan Spencer	5	10	1	10	5

Average	5.42	5.50	3.33	7.50	5.00

RAVA FINAL SCORES

The Offeror with the highest raw score received the maximum number of points for the evaluation category. Each subsequent Offeror's score was divided by the highest score and then multiplied by the maximum number of points available (150) to equal the number of points awarded.

VENDOR	CedarCrestone	CIBER	Tyler Technologies	CGI	CherryRoad Technologies
Raw Score	5.42	5.50	3.33	7.50	5.00
Final RAVA Score	108.41	110.00	66.60	150.00	100.00

Evaluation of Strategic Fit Considerations - 50 Points

The State's PEC used the following information provided by the Offerors to evaluate Strategic Fit Considerations:

1. Exhibit D – Strategic Fit Considerations

2. Exhibit F – Software Functionality and Technical Requirements

The State’s PEC evaluated and scored Exhibits D and F as a whole, assigning a single score to the combined components. The PEC evaluated the qualifications of the Software Offeror’s and System Implementation Offeror’s personnel and experience. Consideration was given to how well they met the State’s operational, business, and strategic goals. In addition, impacts to State resources were considered, as were the Offeror’s exceptions to the State’s terms and conditions. As previously described, Strategic Fit components were cleansed of identifying names or information and other than the color coding, the PEC members did not know who the Offerors were.

STRATEGIC FIT-PEC MEMBERS’ INDIVIDUAL SCORES

	615	409.01	475.43	353.18	603.36	376.27

Susceptible for Award Determination: 350 points were still available in Filter 3, Interviews and Demonstrations as well as the rest of the Alaska Offeror's Preference of 35 points. After analysis, three Offerors were determined to be within the competitive range.

END OF FILTER 2

THREE PROPOSALS WERE CONSIDERED TO BE SUSCEPTIBLE FOR AWARD AND ADVANCED TO FILTER 3: CedarCrestone, CIBER, and CGI.

BEGIN FILTER 3

Evaluation of Interviews - 300 Points

The State conducted interviews with the Offerors that were invited to Filter 3. The State interviewed the following individuals for each of the short listed firms:

- Project Manager
- Technical Lead
- Finance/Procurement Functional Lead
- Business Process Reengineering Lead
- Training Lead

The State interviewed each of the above individuals separately. No other individuals from the Offeror's organization were allowed to sit in or participate during the interviews. Similar to a job interview, the questions were not disclosed prior to the interview. All proposed team members were required to be available in person for interviews on the date specified. No substitutes, proxies, phone interviews, or electronic interviews were allowed. All interviews were video recorded, and if awarded the contract, all interview statements will become part of the final contract.

INTERVIEWS FINAL SCORES

The Offeror with the highest raw score received the maximum number of points for the evaluation category. Each subsequent Offeror’s score was divided by the highest score and then multiplied by the maximum number of points available (300) to equal the number of points awarded.

VENDOR	CedarCrestone	CIBER	CGI
Raw Score	4.07	3.8	6.83
Final Interview Score	178.77	166.91	300.00

Links for each Offerors’ proposed individuals’ video interviews are located online at the Division of Finance’s Administrative Systems Replacement Project website.

Evaluation of Client Demonstrations - 50 Points

The State required Offerors to identify one past client for which the proposed software system has been successfully implemented. The Offeror coordinated the past client's system demonstration for the State's PEC. The purpose of this two-hour demonstration was to have an end user demonstrate the installed and fully operational system. The demonstration was also used to identify the end users' satisfaction with the product, the system, the installation, and the service provided by the Offeror.

Scenarios to be demonstrated included:

1. Financial – Invoice a citizen for a license renewal fee; track the receivable; and liquidate it upon receipt of the money. Show how the receipt is reflected in the revenue journal and general ledger.
2. Procurement – Create a purchase requisition; track the requisition approval process; create the purchase order resulting from the requisition, track the purchase order approval process through at least two separate approvers; issue the purchase order to a vendor, receive the products, approve the invoice, and track the payment process.
3. Human resources/payroll - Appoint a new employee with setup of employee/employer charges, labor distribution, pay, leave, benefits, and demographic information.

Cost Reasonableness:

To ensure the optimum use of public funds, the State reviewed the cost reasonableness of the prioritized Offerors in the following manner:

1. If the highest ranked Offeror's ten-year total cost was within the State's means and within 5% of the next highest ranked Offeror's ten-year total cost, the State would invite the highest ranked Offeror to the Pre-award Phase.
2. If the highest ranked Offeror's ten-year total cost was within the State's means, but was more than 5% greater than the second highest ranked Offeror's ten-year total cost, the State reserved the right to invite the next highest ranked Offeror to the Pre-award Phase.
3. If the highest ranked Offeror's ten-year total cost exceeded the State's means, the State reserved the right to invite the next highest ranked Offeror whose ten-year total cost fell within the State's means.

Highest Ranked Offeror: \$35,684,136
 Second Ranked Offeror: \$34,282,573

Highest Ranked Offeror cost was within the cost reasonableness factor of 5% at 4.09% higher than the Second Ranked Offeror and was deemed to be within the State's means.

FINAL SCORES FOR ALL OFFERORS:

CedarCrestone	CIBER	Tyler Technologies	CGI	CherryRoad Technologies
617.79	668.33	353.18*	988.36	376.27*

*Deemed not susceptible for award at the end of Filter 2 and did not advance to the Interview and Demonstration scoring components.

END OF FILTER 3

THE HIGHEST RANKED OFFEROR, CGI, WAS INVITED TO PARTICIPATE IN THE PRE-AWARD PHASE.
