SECTION I
INTRODUCTION

INTRODUCTION

The State-wide Cost Allocation Plan (SWCAP) for indirect services provided by central services agencies of the State of Alaska for fiscal year 2012 is based on actual data incurred during the fiscal year ended June 30, 2010 (FY 2010). The Plan was prepared by MAXIMUS, Inc. at the request of the Department of Administration, State of Alaska.

The U.S. Office of Management and Budget issued OMB Circular A-87 (2 CFR Part 225), which defines allowable expenditures for Federal grants. The Circular establishes procedures for recovering both direct and indirect costs of programs. The Circular requires that a state wishing to claim indirect costs as charges against Federal grants, prepare an annual SWCAP and submit the Plan for approval to a designated Federal department for review and approval.

This SWCAP, based on actual data incurred during the fiscal year ended June 30, 2010, should be fixed and used on all indirect cost proposals for Federal programs during the State's fiscal year ending June 30, 2012 (FY 2012).

The SWCAP is formatted as follows:

- ❑ **Certificate of Cost Allocation Plan** - a certification by an authorized official that the SWCAP has been prepared in accordance with applicable policies and procedures of OMB Circular A-87 (2 CFR Part 225).
- ❑ **Organization Chart** - a current State of Alaska organization chart.
- ❑ **FY 2012 Fixed Costs** - schedule which summarizes fixed costs for each State agency.
- ❑ **Cost Allocation Plan** - detailed analysis and allocation of central services agencies based on FY 2010 data.
- ❑ **Supporting Documentation** – supporting spreadsheets and financial statements from the Alaska Statewide Accounting System (AKSAS).

CERTIFICATION BY AN

AGENCY OFFICIAL

**STATE OF ALASKA
STATEWIDE COST ALLOCATION PLAN
CERTIFICATE OF COST ALLOCATION PLAN**

This is to certify that I have reviewed the cost allocation plan submitted herewith and to the best of my knowledge and belief:

- (1) All costs included in the FY 2012 Statewide Cost Allocation Plan to establish cost allocations or billings for the fiscal year beginning July 1, 2011 and ending June 30, 2012 are allowable in accordance with the requirements of OMB Circular A-87 (2 CFR Part 225), "*Cost Principles for State and Local Governments*," and the Federal award(s) to which they apply. Unallowable costs have been adjusted for in allocating costs as indicated in the cost allocation plan.
- (2) All costs included in this proposal are properly allocable to Federal awards on the basis of a beneficial or causal relationship between the expenses incurred and the awards to which they are allocated in accordance with applicable requirements. Further, the same costs that have been treated as indirect costs have not been claimed as direct costs. Similar types of costs have been accounted for consistently.

I declare that the foregoing is true and correct.

EDUCATION AND EARLY DEVELOPMENT

The Department of Education and Early Development is responsible for Alaska's system of public education. The State Board of Education and Early Development is the executive board of the department. The board develops educational policy, promulgates regulations governing education, appoints the commissioner of Education and Early Development with the Governor's approval, and is the channel of communication between state government and the public for educational matters. Education policies are determined by the board and administered by the commis-

sioner through department divisions. Programs administered include: public school funding, teacher certification, and student assessment. The department also operates Mt. Edgecumbe High School, the state's secondary boarding school program. The department administers the state libraries, archives, museum services, provides grants to the arts community, and provides financial aid to post-secondary students through the Alaska Commission on Postsecondary Education.

ENVIRONMENTAL CONSERVATION

The Department of Environmental Conservation is the state's regulatory agency responsible for protection of the environment and protection of citizens from unsafe sanitary practices.

To accomplish these results, the department establishes protective standards; cleans-up and controls pollution to air, land and water; controls sanitary practices related to food, drinking water and solid waste; and enforces these controls. Services to communities include financial and technical assistance for upgrading water, sewage and solid waste, assistance meeting health-based standards for air quality, and positioning of oil spill response equipment.

Through partnerships with Alaska citizens, businesses, and communities, the department works to safely manage and reduce pollution and hazards to the environment and human health.

FISH AND GAME

The Department of Fish and Game's mission is to protect, maintain, and improve the fish, game, and aquatic plant resources of the state, and manage their use and development in the best interest of the economy and well-being of the people of the state, consistent with the sustained yield principle in the Alaska Constitution. The commissioner and the department conduct management and research functions necessary to support this mission.

The Boards of Fisheries and Game are responsible for adopting regulations to conserve and develop the state's fish and wildlife resources. The Commercial Fisheries Entry Commission is a quasi-judicial agency that promotes resource conservation and sustained yield management by regulating entry into Alaska's commercial fisheries. The department also includes the Exxon Valdez Oil Spill Trustee Council, which oversees restoration of the injured ecosystem through the use of the \$900 million civil settlement.

HEALTH AND SOCIAL SERVICES

The Department of Health and Social Services' mission is to promote and protect the health and well-being of Alaskans. The overriding theme for the department's future direction is "helping individuals and families create safe and healthy communities" by strategically focusing on substance abuse, health and wellness, health care reform, long-term care and vulnerable Alaskans.

The department's primary functions include: operation of the Alaska Veterans and Pioneers Homes, support services for seniors and disabled Alaskans; child protection and family preservation services; operation of youth detention facilities and assisting offenders and their families in developing skills to prevent crime; and providing basic supports and promoting self sufficiency for vulnerable individuals who are unable to provide for themselves.

The department is committed to prevention of illness, health promotion and protection; overseeing community-based mental health and substance abuse services across the continuum of care (prevention, early intervention, treatment and recovery programs), including operation of the Alaska Psychiatric Institute; and provision of Medicaid services for low income and disabled Alaskans.

It provides legal assistance to state and local law enforcement, the Department of Corrections and the Division of Juvenile Justice. It also works in partnership with executive, legislative, and judicial agencies by providing legal advice and representing the state in all actions in which it is a party. Such actions include protecting Alaska's children and youth by handling child abuse, neglect, and delinquency cases expeditiously; resolving questions of state versus federal control of natural resources; ensuring that the state receives its correct share of oil and gas taxes and royalties; collecting money owed to the state by businesses and individuals for child support, fines, and other unpaid obligations; and defending the state against claims for personal injury and other damages.

These resources include approximately 95.4 million acres of uplands; 60 million acres of tidelands, shore lands, and submerged lands; and 40,000 miles of coastline. Strategic missions include: develop, conserve, and enhance the natural resources of the State of Alaska; raise public awareness that Alaska's natural resources are the basic asset of our economy; stimulate and encourage resource-based, value-added economic activity while conserving Alaska's wild and scenic value; determine the potential for natural hazards that may impact people and facilities in Alaska; and maintain access to and manage the state's land records. The department also plays an instrumental role in the Alaska Gasline Inducement Act (AGIA) pro-

cess, a law designed to advance construction of a natural gas pipeline from the North Slope to market.

The department serves the state from offices located in 30 Alaskan communities, and encompasses the divisions of Agriculture; Coastal and Ocean Management; Forestry; Geological and Geophysical Surveys; Mining, Land and Water; Oil & Gas; and Parks and Outdoor Recreation; the AGIA Coordinator's Office; the Office of Project Management and Permitting; the Mental Health Trust Land Office; the Joint Pipeline Office; the Citizens Advisory Commission on Federal Areas, the Natural Resources Conservation and Development Board, and the Seismic Hazards Safety Commission. Dear Mr. Arehart:

A copy of a Negotiation Agreement approving the central service cost allocation plan for the fiscal year ending June 30, 2012 is attached. This Agreement reflects an understanding reached between your organization and a member of my staff concerning the central service costs that may be included as indirect costs in your departments and agencies that have Federal grants and/or contracts. Please have the Agreement signed by a duly authorized representative of your organization and return it to me BY FAX, retaining the copy for your files. We will reproduce and distribute the Agreement to the appropriate awarding organizations of the Federal government for their use.

Our review included the University of Alaska (UA) share of the interest costs incurred by the State to service the Higher Education Facility General Obligation Bonds. It was determined that the UA share of the interest costs was \$1,983,076 for the fiscal year ending June 30, 2010.

A cost allocation plan proposal together with supporting information are required to substantiate your claim for costs under grants and contracts awarded by the Federal government. Thus, your next proposal based on actual costs for your fiscal year ending 06/30/11, is due in our office by 12/31/11.

Sincerely,

Wallace Chan
