Independent Auditor's Report

Citizens of the State of Alaska:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Alaska, as of and for the year ended June 30, 2010, which collectively comprise the State's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the State of Alaska's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Alaska Permanent Fund, the Fiduciary Funds – Pension and Other Employee Benefit Trust Funds, and one Discretely Presented Component Unit: Alaska Mental Health Trust Authority. Those financial statements reflect total assets, net assets and revenues of the indicated opinion units:

<u>Opinion Unit</u>	<u>Percent of Assets</u>	<u>Percent of Net Assets/ Fund Balance</u>	<u>Percent of Revenues</u>
Governmental Activities	61%	61%	32%
Aggregate Discretely Presented Component Units	4%	8%	4%
Major Funds:			
Alaska Permanent Fund	100%	100%	100%
Aggregate Remaining Fund Information:			
Fiduciary Funds	86%	88%	83%

Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for those component units and funds, is based on the reports of other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the

overall financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to in the first paragraph present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Alaska, as of June 30, 2010, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 1F to the financial statements, effective July 1, 2009, the State of Alaska changed its method of reporting fund balance classifications to reflect the adoption of Governmental Accounting Standards Board Statement 54: *Fund Balance Reporting and Governmental Fund Type Classifications*.

The management's discussion and analysis, budgetary comparison information, and the corresponding notes as listed in the table of contents are not a required part of the basic financial statements but are supplementary information required by the accounting principles generally accepted in the United States of America. We and the other auditors have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of Alaska's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and statistical sections are presented for the purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements have been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, in our opinion, based on our audit and the report of other auditors, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, accordingly, we express no opinion on them.
