

PROGRAM 4 – DRINKING WATER STATE REVOLVING FUND

DEPARTMENT OF ENVIRONMENTAL CONSERVATION

PROGRAM OBJECTIVES

The Department of Environmental Conservation's (DEC), Drinking Water State Revolving Fund (DWSRF), created by the 1996 amendments to the federal Safe Drinking Water Act (SDWA), assists public water systems with financing the cost of infrastructure needed to achieve or maintain compliance with the SDWA. Section 1452 of the SDWA authorizes the U.S. Environmental Protection Agency (EPA) to award capitalization grants to states to provide seed money for the purpose of establishing a low-interest loan program and other types of assistance to eligible water systems.

PROGRAM PROCEDURES

Funding is a combination of federal grants/state match from the Environmental Protection Agency Capitalization Grants for Drinking Water State Revolving Funds (ANL 66.468) and state "second cycle funds" which are a combination of loan repayments, investment and interest income. See Alaska Statutes 46.03.036. Alaska Drinking Water Fund, 46.03.038. Alaska Drinking Water Fund, and AS 46.03.039. Fees Charged for Loans Made From the Alaska Drinking Water Fund, and 18 AAC 76 Alaska Clean Water and Drinking Water Revolving Loan Funds.

There are multiple Funding options:

- 1) Federal Grant + State Match – These funds are subject to both Federal and State Single Audit. The Federal Compliance Supplement for ANL 66.458 should be used for both of these audits.
- 2) State Only "second cycle funds" – These funds are **not** subject to State Single Audit.
- 3) Loan Subsidy or Forgiveness –
 - a. Federal Grant + State Match – These funds are subject to both Federal and State Single Audit.
 - b. State Only "second cycle funds" – These funds are subject to State Single Audit. The Compliance Supplement below should be used.

Auditors should verify funding source with DEC to ensure appropriate Single Audit Requirements are applied.

This program is administered by the Division of Water (DOW), Technical Assistance and Financing Program. For a project to be considered for funding from the ADWF, it must be included in the State's Project Priority List of DWSRF projects. The process is initiated when an eligible borrower completes a project questionnaire through the ADEC Online Application System.

The project scoring committee, made up of representatives from the SRF Program, as well as the ADEC Drinking Water, Wastewater, Source Water Protection, and Nonpoint Source Programs, evaluates the project questionnaires based on the DWSRF criteria and assigns a numeric score to each project. Projects are added to the PPL in rank order and funded based on an established rating criteria.
