

PROGRAM 7 – CAPITAL GRANT-IN-AID PROGRAM

DEPARTMENT OF HEALTH

I. PROGRAM OBJECTIVES

The objective of the capital grant-in-aid program is to carry out legislative intent in appropriating grant funds for the acquisition, construction, repair, outfitting and equipping of various health and social services related facilities throughout Alaska. In the event that the department receives a one-time only or pilot project, as a result of legislative action that may contain special terms and conditions outside this supplement, a new supplement will be created.

II. PROGRAM PROCEDURES

Capital grants are appropriated on a non-lapsing fiscal year basis to the Department of Health and Social Services from the General Fund, from Mental Health Trust Authority Authorized Receipts, or from various other funding sources including Federal Funds, which may be authorized during each legislative session, in accordance with Alaska Statutes (AS) 37.25.020.

Some appropriations are for named recipient (designated) grants under AS 37.05.316, although fewer named recipient grants have been appropriated in recent years (with more reliance on the Community Matching Grant Program administered by the Department of Community and Economic Development). The majority of capital grants appropriated to the Department are awarded based on the provisions of 7AAC 78.040 for purposes consistent with the specific appropriation. These grant funds are appropriated and granted under specific authorization provided in various other statutory provisions, including AS 18 and AS 47. Appropriated funds are administered and distributed by Finance and Management Services, Facilities Section through 7 AAC 78.040 provisions. This may include a detailed application, proposal review, and monitoring process to various local governments and/or nonprofit organizations engaged in the delivery of human services to Alaskans. Stringent cash flow control is maintained throughout the life of each grant and a formal close-out process is initiated when the specific project has been completed.

III. COMPLIANCE REQUIREMENTS AND SUGGESTED AUDIT PROCEDURES

A. TYPES OF SERVICES ALLOWED AND UNALLOWED -

- 1. Compliance Requirement:** The adoption of regulations for named recipient grants under AS 37.05.316 is expressly prohibited by AS 37.05.318. Furthermore, because of the infrequency of their applicability as authorization for construction grants, no specific regulations have been promulgated or adopted for such grants made under the various provisions of AS 18, AS 47, or any other specific statutory provisions. Consequently, it is necessary to negotiate various compliance details into specific grant agreements. However, for competitive grants, the general grant regulations, 7 AAC 78, adopted by the Department, when applicable and appropriate to capital grants, guide the grant administration, procedures,
