

The Summary of Benefits and Coverage (SBC) document will help you choose a health [plan](#). The SBC shows you how you and the [plan](#) would share the cost for covered health care services. **NOTE: Information about the cost of this [plan](#) (called the [premium](#)) will be provided separately. This is only a summary.** For more information about your coverage, or to get a copy of the complete terms of coverage contact the division at 1-800-821-2251. For general definitions of common terms, such as [allowed amount](#), [balance billing](#), [coinsurance](#), [copayment](#), [deductible](#), [provider](#), or other underlined terms, see the Glossary. You can view the Glossary at www.AlaskaCare.gov or call 1-800-821-2251 to request a copy.

Important Questions	Answers	Why This Matters:
What is the overall deductible ?	\$300/Individual or \$600/family	Generally, you must pay all of the costs from providers up to the deductible amount before this plan begins to pay. If you have other family members on the plan , each family member must meet their own individual deductible until the total amount of deductible expenses paid by all family members meets the overall family deductible .
Are there services covered before you meet your deductible ?	Yes. Preventive care services with an in-network provider, some primary care services, and some specialty care services are covered before you meet your deductible .	This plan covers some items and services even if you haven't yet met the deductible amount. For example, this plan covers certain in-network preventive services without cost-sharing and before you meet your deductible . See a list of covered preventive services at www.alaskacare.gov
Are there other deductibles for specific services?	No.	There are no separate deductibles for specific services.
What is the out-of-pocket limit for this plan ?	For network providers \$1,750 individual / \$3,500 family; for out-of-network facilities \$3,500 individual / \$7,000 family; prescription drug coverage : individual \$1,000 / family \$2,000.	The out-of-pocket limit is the most you could pay in a year for covered services. If you have other family members in this plan , they have to meet their own out-of-pocket limits until the overall family out-of-pocket limit has been met.
What is not included in the out-of-pocket limit ?	Premiums , balance-billing charges, penalties for non-emergency care at an emergency room of a hospital, precertification penalties, and health care services this plan does not cover.	Even though you pay these expenses, they do not count toward the out-of-pocket limit .
Will you pay less if you use a network provider ?	Yes. See AlaskaCare.gov or call (855) 784-8646 for a list of network providers .	This plan uses a provider network . You will pay less if you use a provider in the plan's network . You will pay the most if you use an out-of-network provider , and you might receive a bill from a provider for the difference between the provider's charge and what your plan pays (balance billing). Be aware, your network provider might use an out-of-network provider for some services (such as lab work). Check with your provider before you get services.
Do you need a referral to see a specialist ?	No.	You can see the specialist you choose without a referral.

 All [copayment](#) and [coinsurance](#) costs shown in this chart are after your [deductible](#) has been met, if a [deductible](#) applies. [Copayments](#) do not apply to your [deductible](#), but do apply to your [out-of-pocket limit](#).
