

TRS Defined Contribution Retirement Plan *Features and Highlights*

The Alaska TRS Defined Contribution Retirement Plan, or DCR Plan, is a defined contribution plan governed by Section 401(a) of the Internal Revenue Code. You contribute a portion of your pre-tax wages to the Plan from each paycheck to your account, and your employer makes a matching contribution. You can choose how to invest the money you contribute to the plan, using the investment options chosen by the Alaska Retirement Management (ARM) Board. Your vested account balance — minus any losses and/or fees — is available to you or your beneficiary at a future date.

CONTRIBUTIONS AND MATCH INFORMATION

How do I contribute?

Each pay period, you contribute 8% of your gross eligible compensation to your account through an automatic payroll deduction, before taxes are calculated.

How much does my employer contribute?

As a TRS (Tier III) participant, your employer contributes an additional 7% of your gross eligible compensation to your account each pay period — for a total combined contribution is 15% of your gross eligible salary.

VESTING

When am I vested in the Plan?

Vesting refers to the percentage of your account you are entitled to receive when a distributable event occurs. Your contributions to the Plan and any earnings they generate are always 100% vested. Employer contributions to the Plan, plus any earnings they generate, are vested as follows:

| Years of Service | Vested Percentage of Contributions |
|------------------|------------------------------------|
| 1 year | 0% |
| 2 years | 25% |
| 3 years | 50% |
| 4 years | 75% |
| 5 years | 100% |

If you take any distribution from your DCR plan, your vesting will start over at 0% if you return to work under a PERS/TRS employer. If you leave your funds in the plan, your vesting will remain.

Please consult with your financial planner or investment advisor as needed. The date in a target date fund's name is the approximate date when investors are expected to start withdrawing their money (generally assumed to be at age 65). The principal value of the fund(s) is not guaranteed at any time, including at the time of the target date and/or withdrawal.

FEES/CHARGES

What fees do I pay to participate?

Every Plan participant helps cover the costs of administration through two types of fees:

- 1** A monthly fee based on a 0.11% annual rate on assets (0.0011/12 x month-end asset balance)
- 2** A fixed annual fee of \$35 for actively contributing participants or \$25 for non-contributing members. This fixed annual fee is charged to your account each July.

The Plan may also charge fees for the use of specific features, such as My Total Retirement. In addition, the Plan's funds have annual investment expenses that vary fund by fund. These costs are factored into the rate of return from the investment. For more detailed information, please read the corresponding Fund Overview available at www.akdrb.com. There are no front-end sales charges with any of the Plan's investments.

WITHDRAWALS

When and how can I make withdrawals?

You become eligible to receive payment of your account 60 days after you have been terminated from employment. When you qualify for a withdrawal (also known as a distribution), you have the following options available:

- » Deferred payment until you reach the age for a required minimum distribution (usually age 72)
- » Single life annuity
- » Period-certain annuity (five, 10 and 15 years)
- » Single life annuity with period-certain annuity (10 or 15 years)
- » Joint and survivor (50% or 100%; may be chosen only by members)
- » Lump-sum payment (full or partial; two partial payments are allowed per year)
- » Periodic payment (monthly, quarterly, semi-annually or annually)
 - Period certain
 - Minimum distribution option
 - Payment certain
- » Direct rollover to a traditional IRA or Roth IRA or other qualified or eligible plan

As with any financial decision, you are encouraged to discuss moving money between accounts, including rollovers, with a financial advisor and to consider costs, risks, investment options and limitations prior to investing.

How will participation in the Plan affect my taxes?

The amount of taxes you pay and when you pay them are determined by whether you take payment directly or make a direct transfer to a traditional IRA or other qualified plan. Your payment will be taxed in the year of distribution unless you roll it over. However, if you receive the payment before age 59½, you also may have to pay an additional 10% tax penalty. Direct rollovers to Roth IRAs are reported as taxable income but are not subject to the additional 10% tax penalty. Under the State Taxation of Pension Income Act of 1995, monies received from plans such as the Plan are also taxed using the state of the recipient's residence, which is determined by your address. State-mandatory withholding will be taken from your distribution depending on your state of residency.
