Mission Statement

“To mitigate the state’s risk of financial loss from accidental loss and injury.”

Objective

To protect the financial assets and operations of the State of Alaska from accidental loss through a comprehensive self-insurance program for normal and expected property and casualty claims of high frequency and low severity combined with high limit broad form excess insurance protection for catastrophic loss exposures.

Operations

With a present staff of six, Risk Management operates from the State Office building in Juneau. We serve a statewide constituency that includes all departments of the executive, legislative and judicial branches of state government; all state boards and commissions; their respective employees and members.

Risk Management administers the self-insurance program for each State agency, covering all sudden and accidental property and casualty claims. Duties include acquiring excess insurance for property, marine and aviation, all claims for the state, reviewing state contracts, and workers’ compensation.

Annual assessments allocated by Risk Management are the maximum each agency is called upon to pay, forestalling the need for supplemental appropriation or disruption of vital state services after a major property loss, adverse civil jury award, or significant workers’ compensation claim.

The Light Duty Return to Work program is also administered by this division and works closely with the injured employee, supervisor, treating physician, and workers’ compensation adjuster to return employees to work in light duty status within their department once released by their physician. This program motivates employees to return to their regular duties, reduces stress and financial hardship, reduces workers’ compensation cost, and eliminates or reduces hiring and training substitute employees.

The state risk management program affects many Alaskans, from the injured state employee to those who contract with state agencies (construction, purchase, professional service, and lease agreements), and all Alaskans that claim the state is legally liable for their individual property damage or personal injury.

By effectively managing the state’s property and liability exposures through a comprehensive self-insurance program, Risk Management expends less public funds than would be paid to private insurance companies. An in-house claim administrator provides claim services for property, casualty, and third-party losses. A third-party administrator is utilized for workers’ compensation claim administration. All litigation is supported by in house defense counsel assigned from the Torts and Workers’ Compensation Section of the Department of Law.

PROGRAMS

1) Insurance Administration

Property insurance with broad form all risk coverage (including earthquake and flood) is provided on a stated value cost basis covering all state owned or leased real property (buildings) and state-owned personal property (business equipment and office contents including State Museum fine arts), as well as all owned and non-owned aircraft, watercraft (Alaska Marine Highway System ferries and other agency vessels).

Casualty coverage protects each state agency and their personnel from third party civil (Tort) liability claims alleged to have arisen from combined liability; general (premises/operations), automobile, professional (errors and omissions), medical malpractice, aviation (aircraft and airport) or marine (crew and passenger injuries).

Specialty coverage — blanket public employee faithful performance and custom bonding, accidental death and disability (including medical expenses) for volunteers, computer and telephone fraud and foreign liability, etc. The State's excess insurance programs continually evolve — responding to new State activities, policy form offerings and current condition in world reinsurance markets.

In FY2023 the state continues to completely self-insure all statutory workers' compensation claims as an authorized self-insured employer. The state also self-insures all its comprehensive casualty exposures; general liability (premises and operations), professional liability (medical and legal malpractice), and automobile liability. The state fully self-insures property (state owned and contents). The following policies have Self-Insured Retention (SIR) levels. SIRs are the funds Risk Management contributes to a claim prior to excess policies taking effect. Alaska Marine Highway System (AMHS) marine hull risks are at an SIR of \$400,000 per claim; and \$250,000 per incident for airport liability exposures. Policy limits of excess insurance vary by risk; \$1 billion for marine liabilities, \$125 million for fine arts, and \$500 million for airport liability. The following page provides a brief overview of the FY2023 excess insurance program. Many diverse domestic and international insurance companies and various Lloyd's of London underwriting syndicates and companies participate in the State of Alaska's excess insurance program.

Marketing of the State's insurance program is provided by Parker, Smith & Feek. Parker, Smith & Feek has been an Alaskan business since 1987 and is an innovative industry leader. With its partnership with IMA, they are a part of the 3rd largest, privately-owned broker (over 1,700 employees) in the United States and 20th largest broker nationally. The State obtained the independent actuarial assessment of the state insurance program required by *AS 37.05.287 (b)* from Madison Consulting Group, Inc. Specialty computer software programs were supported by Riskonnect Inc. All Risk Management professional service contracts are solicited through formal request for proposals issued every five to seven years.

FY2023 PROPERTY/CASUALTY PROGRAM

<u>COVERAGE</u>	<u>SELF-INSURED RETENTION</u>	<u>LIMITS OF INSURANCE</u>
PROPERTY — all risk owned/leased buildings incl. contents replacement cost coverage (Earthquake & Flood)	Self -Insured	
FINE ARTS - Premises (Earthquake & Flood)	\$2,500 \$10,000	\$125,000,000
BOILER & MACHINERY	\$100,000	\$250,000,000
COMBINED LIABILITY (including general liability, auto liability, professional liability, medical malpractice, director & officers, cyber liability, etc.)	Self-insured	
WORKERS' COMPENSATION	Authorized Self -Insured Employer	Statutory Benefit
MARINE AMHS Vessel Hull & Machinery	\$400,000	Declared Values
AMHS Marine P&I (including Pollution Liability)	\$500,000	\$1,000,000,000
Other Agency Vessel Hull & Machinery	\$100,000	Declared Values
Other Agency Marine P&I (including Pollution Liability)	\$100,000	\$1,000,000,000
FOREIGN LIABILITY	\$1,000	\$1,000,000
AVIATION LIABILITY Airports	\$250,000	\$500,000,000
Aircraft	\$250,000	\$25,000,000
EMPLOYEE FIDELITY BOND / FAITHFUL PERFORMANCE	\$500,000	\$25,000,000

This list is not detailed and does not include all policies for special exposures — there are policy extensions and limitations not included in this statement — additional information concerning specific areas of coverage is available from Risk Management on request. These policies extend to cover all State Departments except those specifically excluded such as the Alaska Railroad, University of Alaska, and AHFC who administer their own insurance programs.

2) Claims Adjusting and Litigation Management

By assuming all normal expected accidental loss, the State can optimize the cost efficiencies of a self-insurance program and directly control the defense and settlement of its claims. Using our own in-house claims administrators and independent insurance adjusting firm located throughout the state, enables Risk Management to provide prompt investigation and fair settlement of liability claims filed by the public and to give all injured state employees and their dependent's timely receipt of any benefits owed under workers' compensation statutes. Replacement cost funding is immediately arranged for prompt repair or renewal of state property and equipment that is damaged or destroyed.

Penser North America, Inc. is the State's third-party claims administrator for all workers' compensation injury and illness claims filed by state employees; their office is in Anchorage, Alaska.

Risk Management claim administrators oversee and manage the day-to-day activities of all independent professionals handling state claims. Through an on-line interactive claims information system, they can immediately determine the status of any case and view all payment and reserve transactions. Large or precedential claims are closely monitored through detailed narrative status reports with direct supervision and control by the state. Risk Management staff can audit claims in real time without leaving their desk, saving travel time and expenses.

For litigated cases, Risk Management funds the Torts and Workers' Compensation Section within the Department of Law, presently twelve assistant attorneys general and eight paralegal positions. When a conflict of interest arises or if the current caseload demands it, a private defense counsel is retained by individual professional service contract with authority of the Department of Law.

Risk Management claims staff work closely with Department of Law legal staff on defense or settlement decisions in all complex claims and litigation cases. Risk Management continues to work with the Department of Law to modernize processes and make production of discovery files more efficient for litigated workers' compensation claims and conduct early case assessments for tort claims.

3) Contract Review

A vital and basic cornerstone in any comprehensive Risk Management program is the transfer of risk through careful consideration of terms and conditions used in all State contract agreements (supply, service, lease, construction, and professional) to identify just a few. Indemnification (hold-harmless) and specifically relevant insurance requirements are necessary to protect the State from being held legally responsible to pay for the negligent acts of independent contractors and other parties with whom the State has written contracts. Due to the wide variety of contract forms, it is not possible to adopt a single standard or uniform format. Risk Management has

developed boilerplate forms (Appendix B1 and B2) to be used by State contracting officers as guidelines in professional service agreements.

Modifications are made on an individual request basis, tailoring the final terms to the unique activities of that agreement, considering availability and affordability of the requested insurance coverage.

5) Cost of Risk Allocation

Risk Management's budget is funded entirely through inter-agency receipts annually billed to each agency through a Cost of Risk premium allocation system (CORA). The Risk Management information system generates the annual cost of risk allocation to each agency reflecting their proportionate share of the State's overall cost of risk. Designed to achieve equitable distribution of the self-insurance program costs, it factors exposure values subject to loss and considers the past five years actual claims experience incurred by each department. For most cost of risk allocations, 80% of the premium billing is based on the average of the past five years-actual claims experience. This provides a direct fiscal incentive to each agency to reduce or control their claim costs.

The program compiles an insured property inventory schedule of owned or leased buildings used, or occupied, and reported to us by State agencies, recording age and type of building construction, occupancy, fire protection services, sprinkler systems, and projected replacement cost value. Individual premiums are then determined.

Premium allocations for general liability and workers' compensation are billed to each department through payroll rates as shown later in this report. Additional breakouts to a second tier divisional or institutional level are generated demonstrating to each agency those units generating claims costs and assisting in accurate and equitable distribution of the Risk Management annual cost of risk allocation within each department. For greatest accuracy, exposure component detail (payrolls, personnel, vehicles etc.) needs to be configured to the same locations or divisional units used for claim location identification. Risk Management continues to work with each agency to develop this information to improve the value of these reports to better assist management comparisons of similar units and operations.

The CORA premium is collected through two methods from individual state agency operating budgets. Reimbursable Services Agreements (RSA's) are used for all categories of insurance other than Workers' Compensation and Combined Liability (general, auto, cyber, and professional), which are assessed on a rate per \$100 payroll and are applied monthly to each agency's actual payroll until the allocated premium is paid. As each agency's payroll generates the premium owed the assessment is individually shut off.

The FY2023 actual rates used for payroll deductions are compared to FY2022 rates, which are presented in **Exhibit B2**.

FY2023 Issues

Risk Financing:

Obtaining adequate financing to meet the ongoing demands of the State's comprehensive self-insurance program remains the highest and most prominent issue for Risk Management. Exclusively funded by interagency receipts, Risk Management pays all claim settlements and defense costs as they are due and payable, drawing from the Catastrophic Reserve Account (CRA) whenever there is insufficient appropriation to meet ongoing claim obligations.

This account is annually refilled by two methods. First, any remaining Risk Management operating appropriation is transferred into the account. Second, a year-end "sweep" of unexpended lapsing state general funds from other state agency operating budgets may be collected if there is less than a \$50 million unencumbered balance in the fund at fiscal year-end.

In FY2022 Legislative approval was provided to increase the fund from \$5 million to \$50 million unencumbered balance to serve as the main source of funding for catastrophic losses. This amount was equal to the policy limits the state could obtain from excess carriers. In FY2021 the market was expected to increase by 30% with another 5-10% increase in FY2022. This allows the state to self-insure all property losses, provide flexibility, and better risk control of property claims.

As required by Alaska Statute 37.05.287 (b) an independent casualty actuary annually estimates future payments of loss and allocated loss adjustment expense for the State of Alaska's self-insurance program. In their report dated October 10, 2022, Madison Consulting Group Inc., estimated expected claim payments in FY2023 to be \$32,669,950 and predict the state will ultimately pay \$170,858,670 for outstanding losses as of June 30, 2024.

The following two **Exhibits A1 and A2** are from the October 10, 2022, Madison Consulting Group Inc., Annual Actuarial Report.

State Catastrophe Insurance Reserve Account

This fund, authorized under *AS 37.05.289*, is limited to a maximum of \$50 million unencumbered, is first replenished by any lapsing Risk Management funds, and then by other agency lapsing general fund appropriation. When enacted in 1987, this fund was intended to pay only the rare large loss. As noted above, Risk Management is making better use of this funding source by moving property coverage into the self-insured program managed by the division.

From FY1990 through FY2022, over \$151 million has been withdrawn from the catastrophe reserve fund or by other direct appropriation to pay claim settlements — see **Exhibit B1**. **Exhibit B8** shows the authorized budget and actual expenditure comparison for FY2013 - FY2022.

Exhibits C3 thru **C7** contain pie charts with graph data illustrating a breakout by department of the last five-year cumulative loss history in Alaska Marine Highway System ferries marine hull claims (by vessel), Workers' Compensation, General Liability, Auto Liability claim cost, and Airport/Aircraft losses.

Exhibits C8 and **C9**, again broken down by Department, show the frequency and severity per 100 full time employees (FTE) on an annual basis (based on actual paid costs). For FY2022, the frequency levels show a minor increase with severity levels showing a minor decrease in claim costs and in frequency per 100 FTEs from the previous year. We continue to find that each department has an interest in and pays close attention to the management of their workers' compensation risk exposures, which seems to be decreasing medical costs, as seen by **Exhibit C11**.

Exhibit C10 shows the cost per hundred to insure State of Alaska property. In FY2022, the property excess market increased affecting premiums.

Exhibit C12 provides a FY2022 pie chart with graph data illustrating the number of eligible injured employees with those we assisted in returning to light duty work and savings in Workers' Compensation cost.

The Risk Management information system can generate many varied forms of analytical reports that can demonstrate costs per line of coverage, loss patterns, and cause of accidents or injury trends. The staff would be glad to respond to any request for customized reports or specific information tailored to the needs of individual agencies.

Funding Projections for Future Fiscal Years

Summary Exhibit 2, Sheets 1a-1c details the calculation of the projection of prospective period funding amounts for the State. The prospective period funding amounts reflect the State's current self-insured retentions by program. The tables below summarize the central estimates of projected funding amounts:

Future Funding Requirements - July 1, 2022 - June 30, 2023		
	Undiscounted	Discounted 3%
Workers' Compensation	\$ 21,306,000	\$ 18,461,649
General Liability	8,492,703	7,393,747
Auto Liability	503,203	465,513
Marine	532,828	511,621
Aviation	400,680	393,989
Property	1,434,536	1,378,159
Total	\$ 32,669,950	\$ 28,604,678

Future Funding Requirements - July 1, 2023 - June 30, 2024		
	Undiscounted	Discounted 3%
Workers' Compensation	\$ 21,947,839	\$ 19,017,802
General Liability	8,949,567	7,791,493
Auto Liability	530,882	491,119
Marine	581,832	558,675
Aviation	431,228	424,026
Property	1,566,464	1,504,902
Total	\$ 34,007,812	\$ 29,788,017
