State of Alaska Cyber Security & Critical Infrastructure Cyber Advisory

July 9, 2013

The following cyber advisory was issued by the State of Alaska and was intended for State government entities. The information may or may not be applicable to the general public and accordingly, the State does not warrant its use for any specific purposes.

ADVISORY NUMBER:

SA2013-060

DATE(S) ISSUED:

07/09/2013

SUBJECT:

Security update available for Adobe Shockwave Player (APSB13-18)

OVERVIEW:

Multiple vulnerabilities have been discovered in Adobe Shockwave, which could allow for code execution. Adobe Shockwave is a multimedia platform used to add animation and interactivity to web pages. These vulnerabilities may be exploited if a user visits or is redirected to a specially crafted web page or when a user opens a specially crafted file. Successful exploitation could result in an attacker gaining the same privileges as the logged on user. Depending on the privileges associated with the user, an attacker could then install programs; view, change, or delete data; or create new accounts with full user rights.

SYSTEMS AFFECTED:

- Adobe Shockwave Player 12.0.2.122 and earlier versions for Windows and Macintosh

RISK:

Government:

- Large and medium government entities: **High**
- Small government entities: **High**

Businesses:

- Large and medium business entities: **High**
- Small business entities: **High**

Home users: High

DESCRIPTION:

Adobe has released a security update for Adobe Shockwave Player 12.0.2.122 and earlier versions on the Windows and Macintosh operating systems. This update addresses a memory corruption vulnerability that could allow an attacker, who successfully exploits this vulnerability, to run malicious code on the affected system. Adobe recommends users of Adobe Shockwave Player 12.0.2.122 and earlier versions update to Adobe Shockwave Player 12.0.3.133.

RECOMMENDATIONS:

We recommend the following actions be taken:

- Install the updates provided by Adobe immediately after appropriate testing.
- Users of Adobe Shockwave Player 12.0.2.122 and earlier versions for Windows and Macintosh should update to Adobe Shockwave Player 12.0.3.133.
- Run all software as a non-privileged user (one without administrative privileges) to diminish the effects of a successful attack.
- Remind users not to visit untrusted websites or follow links provided by unknown or untrusted sources.
- Do not open email attachments from unknown or untrusted sources.
