

## Long Distance Rates (Includes Calling Card & Toll Free Services)

**Part-Net Calling** - Rates apply to your locations or calls that are made "On Net" - originating from a core State of Alaska (SOA) PBX phone switch or VOIP locations in Anchorage, Juneau, and Fairbanks to a non-core SOA PBX or VOIP phone. These rates will apply to overflow calls, which include calls between Anchorage, Juneau and Fairbanks when they exceed the SOA phone network capacity. All incoming 800 calls rate at Part Net rates.

Out-of-State Calling & Inbound 800 Calls	Per Minute
Billed in 6-second Increments	\$0.04

In-State Calling & Inbound 800 Calls	Per Minute
Billed in 6-second Increments	\$0.10

**Off-Net Calling** - Rates apply to calls that originate from any phone that is not one of the core SOA PBX phone switches or VOIP services in Anchorage, Juneau, and Fairbanks. Calling Card Calls bill at Off-Net rates with no GCI surcharge.

Out-of-State Calling & Calling Card Calls	Per Minute
Billed in 6-second Increments	\$0.04

In-State Calling & Calling Card Calls	Per Minute
Billed in 6-second Increments	\$0.10

**Calling Cards** - Domestic locations are not subject to GCI surcharge. International calls are subject to a \$0.30 per call surcharge. Calling Card calls placed from payphones are billed a \$0.50 POC (Payphone Origination Charge) and billing other than by coin.

**Toll Free Services** - There is no additional monthly plan fee for inbound 800 service. Calls made to an inbound 800 number from a payphone are subject to a \$0.50 per call surcharge to offset the federally mandated compensation of payphone providers.

- A \$5.00 per number monthly fee applies to custom call routing.
- Canada origination of 800-numbers is optional. Rates for calls to State 800 numbers originating in Canada are at tariff rates.
- Operator-assisted calls incur additional fees.

GCI's long distance rates for the State of Alaska are based on our Enterprise Advantage Calling Plan. V0204

## Managed Audio Conference Rates

Per Conference Set-up Fees	One Time
Meet-Me conference calls, per leg	N/A
Operator Assisted, per leg	N/A

In-State and Out-of-State Conferences	Per Minute
Per attendee connection (Meet Me)	\$0.19
Per attendee connection (Operator Assisted)	\$0.25

- ✓ One-time setup fees removed.
- ✓ Calls with an International leg (excluding Canada) are subject to an additional set up fee of \$5.00 and an additional per minute rate of \$1.00 per minute.

**Billing Options** - There are three billing options for audio conferencing:

**Meet Me** - Allows participants to dial an 800 number, 1(800)315-MEET (6338) then enter a predetermined code and connect to their

conference call without operator assistance. These calls are set up to bill to a phone number specified when scheduling the call.

**Operator Assisted** - This is an operator initiated call where the conference operator contacts participants and connects them to the call.

**Joint SOA and 3rd Party** - This is a modification of the "Meet Me" call described above. This type of call is used when a SOA organization wishes to hold a conference call with non-SOA entities that would be required to pay for their own line on the conference call. To schedule this type of conference call, please notify the operator at the time the call is scheduled. A separate sheet with specific instructions for the non-SOA party is available. All SOA call participants will be charged the Official SOA/GCI contract rates for conference call. Commercial rates will apply to all participants that are not part of the SOA/GCI contract. Commercial rates for audio conference calling are based on time of day and distance.

**Scheduling** - To schedule audio conferences, contact GCI's Conference Center at 1-800-770-2121.

## Dial-Up Rates

**Standard Rates** - SOA has flat rate charges of \$17 per month. Toll-free dialing access can be added and will incur additional long-distance charges at a per minute rate of \$0.10. Dialing into one of GCI's local numbers will not incur additional charges. For a listing of local access numbers go to the following web site:
