Sheraton Hotel, Howard Rock Ballroom; 401 E. 6th Ave.

9:00AM – 12:00PM or 1:30PM – 4:30PM

ETS is going on the road for our Town Hall meetings to give state employees an overview of the project objectives and a look at what to expect in the next few months ahead. There will be a brief presentation on cool features of Microsoft Outlook 2003 - this is what we will all be using for email and calendars, followed by presentations on the new mail management and archiving application called EAS - Enterprise Archive System by Zantaz. A Microsoft representative will be present to talk about several of the new technologies, including Windows Mobile, which is coming up our road very quickly! Dell Computers will be providing refreshments - please come by and join us - - we have allowed time for lots of questions and answers and will have a demo computer with email for employees to "take a test-drive" - and please remember to ask your supervisor if you may attend!
