### CANCELLATION ADMINISTRATIVE APPROVAL NO. AIO 10B-004

RE: Cancellation of Administrative Approval AIO 10B.004  
Milne Point Unit G-07 (PTD 191-025)  
Schrader Bluff Oil Pool

Dear Ms. Hughes:

Pursuant to BP Exploration (Alaska), Inc. ("BPXA")'s request dated July 2, 2007 AOGCC hereby cancels Administrative Approval AIO 10B.004, which allows continued water injection in MPU G-07. This well exhibited surface casing communication, and BPXA did not at the time propose repairing the well to eliminate the problem. The Alaska Oil and Gas Conservation Commission determined that water injection could safely continue in the well, but subject to a number of restrictive conditions set out in the administrative approval.

Since then, BPXA has determined that the condition of MPU G-07 is inconsistent with their internal Well Integrity System policy. The well is shut in awaiting a rig work over. Consequently, Administrative Approval AIO 10B.004 no longer applies to operation of this well. Instead, injection in well MPU G-07 will be governed by provisions of the underlying Area Injection Order No. 10B.

**DONE at Anchorage, Alaska and dated July 9, 2007.**
