### CANCELLATION ADMINISTRATIVE APPROVAL NO. AIO 2B.020

Mr. Perry Klein  
Well Integrity Project Supervisor  
ConocoPhillips Alaska, Inc.  
P.O. Box 100360  
Anchorage, AK 99510-0360

RE: Cancellation of Administrative Approval AIO 2B.020  
Kuparuk River Unit Well 1C-15 (PTD 1982290)  
Kuparuk River Oil Pool

Dear Mr. Klein:

Pursuant to ConocoPhillips Alaska Inc. (CPAI)'s request dated April 28, 2009 the Alaska Oil and Gas Conservation Commission (Commission) hereby cancels Administrative Approval AIO 2B.020, which allows continued water injection in Kuparuk River Unit (KRU) well 1C-15. This well exhibited a surface casing leak and CPAI did not at the time propose repairing the well to eliminate the problem. The Commission determined that water injection could safely continue in the well, but subject to a number of restrictive conditions set out in the administrative approval.

CPAI has since repaired the surface casing leak with a welded steel sleeve. Results from a passing mechanical integrity test of the well's outer annulus (post-repair) were provided by CPAI in support of their request to cancel the administrative approval. Based on the information provided, Administrative Approval AIO 2B.020 no longer applies to operation of this well. Instead, injection into KRU 1C-15 will be governed by provisions of the underlying AIO No. 2B.

**DONE at Anchorage, Alaska and dated May 5, 2009.**
