### CANCELLATION ADMINISTRATIVE APPROVAL NO. AIO 3.008

Mr. Steve Rossberg, Wells Manager

RE: Cancellation of Administrative Approval AIO 3.008 (Well PBU B-13A)

Dear Mr. Rossberg:

Pursuant to BP Exploration (Alaska) Inc. ("BPXA")'s request dated January 8, 2008 Alaska Oil and Gas Conservation Commission ("AOGCC" or Commission) hereby cancels Administrative Approval AIO 3.008, which allows continued water injection in Prudhoe Bay Unit ("PBU") well B-13A. This well exhibited a production casing leak, and BPXA did not at the time propose repairing the well to eliminate the problem. The Commission determined that water injection could safely continue in the well, but subject to a number of restrictive conditions set out in the administrative approval.

BPXA has since shut in PBU B-13A and will not operate the injection well until repaired. Consequently, Administrative Approval AIO 3.008 no longer applies to operation of this well. Instead, injection into PBU B-13A will be governed by provisions of the underlying AIO No. 3.

DONE at Anchorage, Alaska and dated January 17, 2008.
