RE: Cancellation of Administrative Approval AIO 4C.009 (Well PBU 13-32A)

Dear Mr. Rossberg:

Pursuant to BP Exploration (Alaska) Inc. ("BPXA")'s request dated January 8, 2008 Alaska Oil and Gas Conservation Commission ("AOGCC" or Commission) hereby cancels Administrative Approval AIO 4C.009, which allows continued water injection in Prudhoe Bay Unit ("PBU") well 13-32A. This well exhibited tubing by inner annulus communication and BPXA did not at the time propose repairing the well to eliminate the problem. The Commission determined that water injection could safely continue in the well, but subject to a number of restrictive conditions set out in the administrative approval.

BPXA has since shut in PBU 13-32A and will not operate the injection well until repaired. Consequently, Administrative Approval AIO 4C.009 no longer applies to operation of this well. Instead, injection into PBU 13-32A will be governed by provisions of the underlying AIO No. 4E which supersedes and replaces AIO 4C.

DONE at Anchorage, Alaska and dated January 17, 2008.
