#### ADMINISTRATIVE APPROVAL NO. AIO 4E.011

RE: Cancellation of Administrative Approval AIO 4E.011 (Well PBU 01-11)

Dear Mr. Rossberg:

Pursuant to BP Exploration (Alaska) Inc. (BPXA)'s request dated March 17, 2010, the Alaska Oil and Gas Conservation Commission (Commission) hereby cancels Administrative Approval AIO 4E.011, which allows continued water injection in Prudhoe Bay Unit ("PBU") well 01-11. This well exhibited inner by outer annulus communication and BPXA did not at the time propose repairing the well to eliminate the problem. The Commission determined that water injection could safely continue in the well, but subject to a number of restrictive conditions set out in the administrative approval.

The well recently failed a MITIA. BPXA has determined not to operate PBU 01-11 until further diagnostics can be accomplished and a repair option determined. Consequently, Administrative Approval AIO 4E.011 no longer applies to operation of this well. Instead, injection into PBU 01-11 will be governed by provisions of the underlying AIO No. 4E.

**DONE at Anchorage, Alaska and dated April 26, 2010.**
