Dear Mr. Hall:

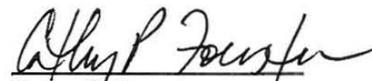

Pioneer Natural Resources Alaska, Inc. (Pioneer) requests an administrative modification to Rule 6 of Disposal Injection Order (DIO) 31. The specific request described in an electronic mail message dated July 2, 2009 is to revise the annual reporting period for the Ooguruk Field Development Project waste disposal performance report to coincide with annual reports required by Environmental Protection Agency (EPA) and Alaska Department of Environmental Conservation (ADEC). Both EPA and ADEC establish a reporting period of October through September, with reports due not later than October 31. Pioneer states that a majority of the information provided to the Commission is identical to that provided to the other agencies.

Pioneer's request is **approved**. The annual waste disposal injection performance report for the Ooguruk Field Development shall be provided to the Commission based in the following revised schedule:

Report Year	Report Period	Report Due Date
2010	July 1, 2009, through September 30, 2010	October 31, 2010
Subsequent Years	October 1 through September 30	On or before October 31 of the report year
