RE: Temporary Extension to Enhanced Recovery Injection Order 2

Dear Mr. Winslow:

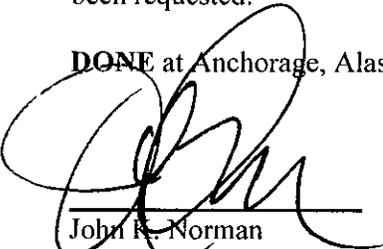

In accordance with Rule 9 of Enhanced Recovery Injection Order ("ERIO") 2, the Alaska Oil and Gas Conservation Commission ("Commission") hereby grants Forest Oil Corporation ("Forest") a temporary extension to the expiration date of this order from November 30, 2007, to December 31, 2007.

On July 30, 2007, Forest applied to the Commission to convert ERIO 2 into a full-field area injection order or, alternatively, to extend the expiration date of ERIO 2 for 12 months. On August 6 and 7, 2007, the Commission asked Forest to provide additional information. The additional information was provided on August 22, 2007. On September 12, 2007, the Commission asked for further information regarding well integrity. This information was provided by Forest on September 14, 2007.

The Commission is continuing its review of Forest's July 30, 2007, application and the supplemental information. The Commission anticipates completing this review prior to the November 30, 2007, expiration date established by administrative approval ERIO 2.004. Nonetheless, to ensure there are no disruptions in the ongoing injection operations authorized under ERIO 2 (*i.e.*, should the review not be completed in time), the Commission is granting a 31-day extension to the expiration date of ERIO 2. Forest must continue to comply with all the other provisions of ERIO 2 and the subsequent administrative approvals.

As provided in AS 31.05.080, within 20 days after written notice of this decision, or such further time as the Commission grants for good cause shown, a person affected by it may file with the Commission an application for reconsideration. A request for reconsideration is timely if it is received by 4:30 p.m. on the 23rd day following the date of this letter, or the next working day if the 23rd day falls on a state holiday or weekend. A person may not appeal this decision to Superior Court unless reconsideration has been requested.

DONE at Anchorage, Alaska, and dated November 30, 2007.
