Lone Creek Undefined Gas Pool

The Lone Creek undefined gas pool was discovered in October 1998 by the Anadarko Petroleum Company's Lone Creek No. 1 well.¹ Aurora Gas, LLC, the current operator, began regular production from the well on August 5, 2003.² The pay zone is a 53-foot Upper Tyonek interval that lies at about 2400' depth.³ Lone Creek No. 1 is connected to Marathon's 16-inch Beluga Pipeline by a six-mile long, six-inch diameter gathering line.⁴
