Subject: Fracking

To Whom It May Concern:

I am very concerned about my family's health with regard to the fluids used in fracking. I have a grandson now and I care very much about the availability of clean drinking water in his future.

At the very least, please require continuous monitoring of water that is subject to fracking operations and a full disclosure of when fracking fluids will be used, including details of what is in those fluids, both before and after fracking operations.

I sincerely appreciate your consideration of my plea.

Sue Johnson
