

Notice of Public Hearing

STATE OF ALASKA ALASKA OIL AND GAS CONSERVATION COMMISSION

Re: Docket Number: CO-16-011
The application of Hilcorp Alaska, LLC (Hilcorp) for authorization under 20 AAC 25.215(b) for the downhole commingling of production from the Tyonek and Beluga Gas Pools in the Beaver Creek Unit No. 23 (BCU 23) well.

Hilcorp, by letter dated May 5, 2016, requests the Alaska Oil and Gas Conservation Commission (AOGCC) issue an order, in accordance with 20 AAC 25.215(b), authorizing the downhole commingling of production from two gas pools in the wellbore of the BCU 23 well.

BCU 23 is currently completed in and producing from the Beluga Gas Pool. Hilcorp proposes adding perforations to the well to test and produce from sands within the proposed Tyonek Gas Pool. The downhole commingling of production from two or more pools in a common wellbore can only be done if the AOGCC has issued an order approving the operation.

The AOGCC has tentatively scheduled a public hearing on this application for June 14, 2016 at 9:00 a.m. at 333 West 7th Avenue, Anchorage, Alaska 99501. To request that the tentatively scheduled hearing be held, a written request must be filed with the AOGCC no later than 4:30 p.m. on May 25, 2016.

If a request for a hearing is not timely filed, the AOGCC may consider the issuance of an order without a hearing. To learn if the AOGCC will hold the hearing, call (907) 279-1433 after May 31, 2016.

In addition, written comments regarding this application may be submitted to the AOGCC, at 333 West 7th Avenue, Anchorage, Alaska 99501. Comments must be received no later than 4:30 p.m. on June 10, 2016, except that, if a hearing is held, comments must be received no later than the conclusion of the June 14, 2016, hearing.

If, because of a disability, special accommodations may be needed to comment or attend the hearing, contact the AOGCC at (907) 279-1433, no later than June 1, 2016.
