Subject: No fracking our home

To whom it may concern,

I am resident of Homer Alaska and believe it is my right to know of proposed fracking and my right to voice concerns over our fisheries and land. It is not fair to sell my rights to live and prosper in this country without asking for my comments and hearing the concerns of the people who live and depend on the land and water to be as healthy as possible for their livelihood.

Sincerely,
Pauli iida
