Subject: Anti-Fracking Comments submitted for AOGCC's Public Hearing by Anna Raupp

To Whom it may concern,

I believe the Alaskans have the right to know about Fracking operations in and around their communities!

I am opposed to Fracking because it pollutes a large volume of water with Waste. Water is so precious and we need to keep it clean. We don't want to jeopardize the health of our ocean, nor the welfare of its inhabitants. This has negative impact on our entire ecology as well as ultimately, the Alaskan economy.

We are already at a crisis point with climate change, seeing temperatures rise to record high temperatures, and natural disasters on the rise. Fracking makes matter worse!

Please do not Frack in the Kachemak Bay. I strongly oppose this and would vote to block any permit granted to aogcc.

*Sincerely,
Anna Raupp
Homer, Alaska*
