RE: End 2-54/Q12 (PTD 191-122) Request for Administrative Approval

Dear Mr. Rossberg:

Per Rule 9 of Area Injection Order ("AIO") 001.000, the Alaska Oil and Gas Conservation Commission ("AOGCC" or "Commission") hereby grants BP Exploration (Alaska) Inc. ("BPXA")'s request for administrative approval to continue water injection in the subject well.

AOGCC finds that BPXA has elected to perform no corrective action at this time on End 2-54/Q12. The Commission further finds that, based upon reported results of BPXA's diagnostic procedures, End 2-54/Q12 exhibits two competent barriers to release of well pressure. Accordingly, the Commission believes that the well's condition does not compromise overall well integrity so as to threaten the environment or human safety.

AOGCC's administrative approval to continue water injection in End 2-54/Q12 is conditioned upon the following:

1. BPXA shall record wellhead pressures and injection rate daily;
2. BPXA shall submit to the AOGCC a monthly report of well pressures and injection rates;
3. BPXA shall perform a yearly MIT-OA to 1.2 times the maximum anticipated well pressure;
4. BPXA shall perform a CMIT-T x IA every two years to 1.2 times the maximum anticipated well pressure;
5. BPXA shall immediately shut in the well and notify the AOGCC upon any measurable change in well outer annulus pressure; and

6. after well shut in, AOGCC approval shall be required to restart injection.

As provided in AS 31.05.080, within 20 days after written notice of this decision, or such further time as the Commission grants for good cause shown, a person affected by it may file with the Commission an application for rehearing. A request for rehearing is considered timely if it is received by 4:30 PM on the 23rd day following the date of this letter, or the next working day if the 23rd day falls on a holiday or weekend. A person may not appeal a Commission decision to Superior Court unless rehearing has been requested.

Sincerely,
