### CANCELLATION ADMINISTRATIVE APPROVAL NO. AIO 18B.003

RE: Cancellation of Administrative Approval AIO 18B.003  
CRU CD2-48 (PTD 202-108)  
Alpine Oil Pool

Dear Mr. Walters:

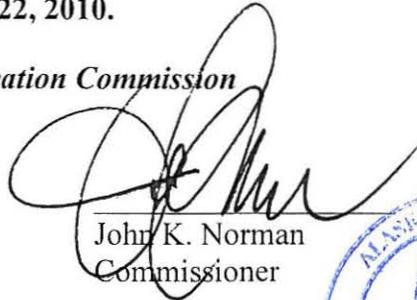

Pursuant to ConocoPhillips Alaska, Inc. (CPAI)'s request dated January 12, 2010 Alaska Oil and Gas Conservation Commission (AOGCC) hereby cancels Administrative Approval AIO 18B.003, which allows continued water injection in Colville River Unit (CRU) well CD2-48. This well exhibited tubing by inner annulus communication and CPAI did not at the time propose repairing the well to eliminate the problem. The Commission determined that water injection could safely continue in the well, but subject to a number of restrictive conditions set out in the administrative approval.

CPAI has since performed a workover and replaced the tubing in CRU CD2-48. A standard MITTIA was successfully accomplished after setting the new packer. Consequently, Administrative Approval AIO 18B.003 no longer applies to operation of this well. Instead, injection into CRU CD2-48 will be governed by provisions of the underlying AIO No. 18B.

**DONE at Anchorage, Alaska and dated January 22, 2010.**
