CANCELLATION ADMINISTRATIVE APPROVAL NO. AIO 2B.023

Mr. Martin Walters
Problem Wells Supervisor
ConocoPhillips Alaska, Inc.
P.O. Box 100360
Anchorage, AK 99510-0360

RE: Cancellation of Administrative Approval AIO 2B.023
Kuparuk River Unit Well 3O-14 (PTD 1880390)
Kuparuk River Oil Pool

Dear Mr. Walters:

Pursuant to ConocoPhillips Alaska Inc. (CPAI)'s request dated December 11, 2008 the Alaska Oil and Gas Conservation Commission (Commission) hereby cancels Administrative Approval AIO 2B.023, which allows continued water injection in Kuparuk River Unit (KRU) well 3O-14. This well exhibited tubing by inner annulus communication and CPAI did not at the time propose repairing the well to eliminate the problem. The Commission determined that water injection could safely continue in the well, but subject to a number of restrictive conditions set out in the administrative approval.

CPAI has since performed a rig workover to replace the production tubing, packer and wellhead packoffs. Results from wellhead pressure data monitoring and a passing mechanical integrity test of the inner annulus (post-repair) were provided by CPAI in support of their request to cancel the administrative approval. Based on the information provided, Administrative Approval AIO 2B.023 no longer applies to operation of this well. Instead, injection into KRU 3O-14 will be governed by provisions of the underlying AIO No. 2B.

DONE at Anchorage, Alaska and dated December 12, 2008.

The Alaska Oil and Gas Conservation Commission

Cathy P. Foerster
Commissioner

John K. Norman
Commissioner
