### ADMINISTRATIVE APPROVAL NO. AIO 2B.031

Mr. Brent Rogers  
Well Integrity Projects Supervisor  
ConocoPhillips Alaska, Inc.  
P.O. Box 100360  
Anchorage, AK 99510-0360

RE: Cancellation of Administrative Approval AIO 2B.031  
Kuparuk River Unit Well 2B-08 (PTD 1840260)  
Kuparuk River Oil Pool

Dear Mr. Rogers:

Pursuant to ConocoPhillips Alaska Inc. (CPAI)'s request dated December 20, 2009 the Alaska Oil and Gas Conservation Commission (Commission) hereby cancels Administrative Approval AIO 2B.031, which allows continued water injection in Kuparuk River Unit (KRU) well 2B-08. This well exhibited a surface casing leak and CPAI did not at the time propose repairing the well to eliminate the problem. The Commission determined that water injection could safely continue in the well, but subject to a number of restrictive conditions set out in the administrative approval.

CPAI has since repaired the surface casing leak. Results from a surface casing integrity test (post-repair) were provided by CPAI in support of their request to cancel the administrative approval. Based on the information provided, Administrative Approval AIO 2B.031 no longer applies to operation of this well. Instead, injection into KRU 2B-08 will be governed by provisions of the underlying AIO No. 2B.

**DONE at Anchorage, Alaska and dated January 11, 2010.**

### *The Alaska Oil and Gas Conservation Commission*

  
Daniel T. Seamont, Jr.  
Chair

  
John K. Norman  
Commissioner

  
Cathy P. Foerster  
Commissioner
