### CANCELLATION ADMINISTRATIVE APPROVAL NO. AIO 3.007

Mr. Steve Rossberg, Wells Manager

RE: Cancellation of Administrative Approval AIO 03.007 (Well PBU X-20)

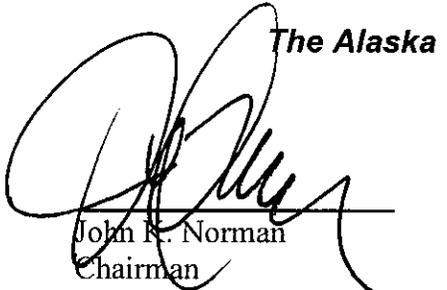

Dear Mr. Rossberg:

Pursuant to BP Exploration (Alaska), Inc. ("BPXA") request dated October 30, 2007 Alaska Oil and Gas Conservation Commission ("AOGCC") hereby cancels Administrative Approval AIO 03.007, which allows continued water injection in Prudhoe Bay Unit ("PBU") well X-20. This well exhibited tubing by inner annulus communication, and BPXA did not at the time propose repairing the well to eliminate the problem. The Commission determined that water injection could safely continue in the well, but subject to a number of restrictive conditions set out in the administrative approval.

BPXA has since plugged PBU X-20 and initiated sidetrack drilling of replacement well PBU X-20A. Consequently, Administrative Approval AIO 03.007 no longer applies to operation of this well. Instead, injection into PBU X-20A will be governed by provisions of the underlying AIO No. 3.

**DONE at Anchorage, Alaska and dated November 4, 2007.**
