### CANCELLATION ADMINISTRATIVE APPROVAL NO. AIO 4C.011

Mr. Steve Rossberg, Wells Manager  
Attention: Well Integrity Engineer, PRB-24  
BP Exploration (Alaska) Inc.  
P.O. Box 196612  
Anchorage, AK 99519-6612

RE: Cancellation of Administrative Approval AIO 04C.011 (Well PBU 09-12)

Dear Mr. Rossberg:

Pursuant to BPXA's request dated July 31, 2007 AOGCC hereby cancels Administrative Approval AIO 04C.011, which allows continued water injection. This well exhibited tubing by inner annulus pressure communication, and BPXA did not at the time propose repairing the well to eliminate the problem. The Commission determined that water injection could safely continue in the well, but subject to a number of restrictive conditions set out in the administrative approval.

Since then, BPXA has shut in the well following a failed mechanical integrity test. BPXA states it does not intend to operate Well 09-12 without competent tubing. Consequently, Administrative Approval AIO 04C.011 no longer applies to operation of this well. Instead, injection in well PBU 09-12 will be governed by provisions of the underlying AIO No. 4E which supersedes and replaces AIO 4C.

**DONE at Anchorage, Alaska and dated August 8, 2007.**
