### CANCELLATION ADMINISTRATIVE APPROVAL NO. AIO 4E.007

Mr. Steve Rossberg, Well Program Manager

RE: Cancellation of Administrative Approval AIO 04E.007 (Well PBU NGI-13)

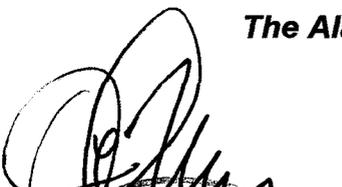

Dear Mr. Rossberg:

Pursuant to BPXA's request dated December 7, 2006 AOGCC hereby cancels Administrative Approval AIO 04E.007, which allows gas injection in well PBU NGI-13. This well exhibited T x OA pressure communication, and BPXA did not at the time propose repairing the well to eliminate the problem. The Commission determined that gas injection could safely continue in the well, but subject to a number of restrictive conditions set out in the administrative approval.

Since then, BPXA has determined that PBU NGI-13's condition has deteriorated to the point that safe operation is no longer supported. The well is shut in awaiting a rig work over. Consequently, Administrative Approval AIO 04E.007 no longer applies to operation of this well. Instead, injection in well PBU NGI-13 will be governed by provisions of the underlying Area Injection Order No. 4E.
