October 10, 1986

ADMINISTRATIVE APPROVAL NO. 5.1

Re: Amend Rule 6 of Area Injection Order (AIO) No. 5

Mr. Gerry Graham  
District Operation Manager  
Union Oil Company of California  
P. O. Box 190247  
Anchorage, AK 99519-0247

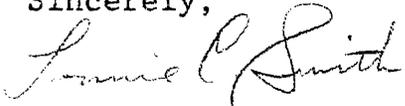

Dear Mr. Graham:

The Commission has determined that Rule 6 of AIO No. 5 as set forth is unclear as to the Commission's intent. This was discussed in our meeting with you on October 6, 1986. Therefore, Rule 6 is amended to read:

Rule 6 Well Integrity Failure

Whenever operating pressure observations or pressure tests indicate pressure communication or leakage of any casing, tubing or packer, the operator must [IMMEDIATELY CEASE INJECTION,] notify the Commission on the first working day following the observation, [AND] obtain Commission approval [FOR CORRECTIVE ACTION] of a plan for corrective action, and when an USDW is not endangered, obtain Commission approval to continue injection.

Sincerely,

Lonnie C. Smith  
Commissioner
