

ALASKA STATUTES

The Alaska Legislature has a contract for the publishing of the Alaska Statutes (AS) that offers products to state government agencies at a “**State Government Rate**”.

Each year, the Department of Education and Early Development (DEED) compiles the executive branch portion of the state’s “**Annual Master Order**”. DEED contacts each agency in August to request the agencies order, which is due by the end of September. The Legislative Reference Library combines the orders for the executive branch, the court system, and the legislature and submits the state’s annual master order to Lexis.

Per AS 24.08.330, The Department of Education and Early Development is responsible for making official distribution of the Alaska Statutes to state executive branch agencies. The administrative director of the court system is responsible for distribution to the court system. Distribution shall be made on the basis of written lists submitted by the department and the court system to the Legislative Affairs Agency within 90 days after the last day of each regular session of the legislature.

Please Note:

Alaska Statutes (AS) and annual supplements, in printed form, are ordered in the state’s annual master order. The AS are issued in softbound form and replaced every two years. New sets of statutes are printed and ordered in even-numbered years, and supplements in the odd-numbered years

Statutes ordered in the state’s annual master order cost about half of the "state government rate" because the state receives 650 free sets through the contract, and this savings is shared equally by all who order in the annual master order. The price per set is based on the total number of sets in the master order.

Statute sets, supplements, or special volumes and services that are ordered outside the annual state master order will be charged at the "state government rate: "If it is necessary to place an order outside the state’s annual master order, make sure the Alaska Lexis Customer Service Representative understands it is a state government order, and should be charged the "state government rate" shown in the price-list below. Failing to do so could result in paying the private sector’s "in-state rate" which is twice as much as the “state government rate.”

Special orders are invoiced to, and paid by, agency receiving volumes: Special orders of statute sets, supplements, individual volumes, or special volumes and services provided under this contract are invoiced to, and paid by, the agency receiving the service within the delegated departmental purchasing authority for printing services.
