

SALARY SCHEDULES BY BU/LOCATION

Effective 07/01/2024

Code - Three character location indicator.

Description - Full name of the town (work site).

Unit Schedule - The units are listed across the top of the table with the salary schedule for each location listed below. Each unit has its own salary schedules.

Schedules are identified by three characters:

The first character identifies the class designation (see AS 23.40.200) and specific groups within a bargaining unit.

The next two characters represent the level of geographic differential as identified by town (work site).

To find the full salary schedule designation, combine all 3 characters by replacing the # with the first character.

Example: The first character is 2 for SS OT Ineligible Class-2. #50 is the next 2 characters for Bethel.

The salary schedule in Bethel for Supervisory (SS) OT Ineligible Class-2 is 250.
