---

## **I. PROGRAM OBJECTIVES**

Aging and Disability Resource Centers (ADRC) and Developmental Disability Resource Connection (DDRC) programs are a non-biased single-entry point for information and assistance with accessing long term care services and supports administered by the Division of Senior and Disabilities Services. ADRCs services are targeted to programs for individuals with disabilities and seniors, and DDRC services are targeted to individuals with developmental disabilities and their families. ADRC and DDRC provide a Person-Centered Intake to learn about the individuals and their preferences, provide options counseling based on the results of the PCI and provide follow up to ensure the individual connects with services.

## **II. PROGRAM PROCEDURES**

ADRC and DDRC grant funds are awarded to nonprofit organizations, Tribal organizations, and one municipality statewide. Persons receiving ADRC/DDRC Services must reside in the geographical area related to Census Areas specified in the Grant Agreement with the exception of one program that is designed to serve families from outlying areas who are accompanying children who are receiving medical care in Anchorage.

ADRC/DDRC Programs must conduct customer satisfaction surveys and participate in Senior and Disabilities Services Quality Assurance activities. Grantees that are awarded funds for ADRC/DDRC Programs must comply with Department of Health and Social Services requirements for the expenditure and reporting of the use of grant funds, as well as participating in the Medicaid Administrative Claiming process, through the random moment time study.
