

# DMVA PROGRAM 12 – AK277 WRANGELL WINDSTORM PUBLIC ASSISTANCE PROGRAM

---

## I. PROGRAM OBJECTIVES

The objective of the Public Assistance Program is to aid local governments and selected non-profit organizations to reduce suffering and hardship resulting from a disaster or from emergencies declared by the Governor. The AK277 WWS disaster was declared Dec 23, 2021. Assistance Listing Number 97.036.

## II. PROGRAM PROCEDURES

Following the Governor's declaration of a disaster, the Department of Military and Veterans' Affairs, Division of Homeland Security and Emergency Management (DHS & EM) provides grants to local government and non-profit entities, which may use the funds to restore disaster related damages to pre-disaster conditions. If the disaster is within the State's capabilities, funds are made available from the Disaster Relief Fund (AS 26.23) in the amount determined by DHS&EM through a damage assessment process. This will be annotated in the Disaster Administrative Plans for each event. Communities will receive funds in either a State or Federally declared disaster after the completion and approval of a project application, project worksheet, and submission of necessary documents. There is no required sub-recipient match within this award.

## III. COMPLIANCE REQUIREMENTS AND SUGGESTED AUDIT PROCEDURES

### A. TYPES OF SERVICES ALLOWED AND UNALLOWED -

1. **Compliance Requirements:** Disaster assistance funds can be expended only on allowable activities and scope of work described on the Project Worksheets (PW) and as approved in the FEMA/State agreement. Federal disaster assistance funds cannot be used for expenditures funded by other Federal Programs.

**Suggested Audit Procedures:** Review approved grant agreement, review Project Worksheets, test expenditure records, and determine the nature of expenditures and the sources of funding for disaster-related expenditures.

2. **Compliance Requirement:** Funds from insurance settlements, salvage, or other sources for specific losses must be deducted by the grantee from its claim.

**Suggested Audit Procedures:**

- a) Review insurance policies and other sources likely to reveal the existence of insurance claims, and similar receipts.
- b) Test financial records to determine the way such receipts were processed.
3. **Compliance Requirement:** Funds approved for improved projects can only be used as contribution to the construction of larger or improved facilities that restore at least the pre-disaster capacity of the damaged or destroyed facilities. State approval must be obtained, and funding for an improved project is limited to the approved estimate of the eligible costs.

# DMVA PROGRAM 12 – AK277 WRANGELL WINDSTORM PUBLIC ASSISTANCE PROGRAM

---

(If the approved estimate is \$100,000 and the applicant chooses to rebuild an improved facility which costs \$150,000, then FEMA/State share is based on the original \$100,000 estimate. However, if the actual cost is less than the approved estimate amount, FEMA/State adjustment is required).

**Suggested Audit Procedures:** Review a sample of PWs for damaged or destroyed facilities; and ascertain amount approved for improved projects and costs for new facilities.

4. **Compliance Requirement:** As a condition of receiving assistance for restoration of certain facilities, sub-recipients may be required to obtain and maintain specific types of insurance.

**Suggested Audit Procedure:** Review a sample of those projects for which insurance commitments were required; and determine whether the type of and extent of insurance required was obtained and whether it is being maintained.

B. **ELIGIBILITY** - The auditor is not expected to verify eligibility.

C. **REPORTING REQUIREMENTS** -

**Compliance Requirement:** The sub-recipients are required to submit all progress reports, final narrative reports, and copies of documentation as part of the reimbursement process as outlined within the Project Worksheet agreement.

**Suggested Audit Procedure:** Review submitted documentation for completeness, accuracy, and timeliness of submission.

D. **SPECIAL TESTS AND PROVISIONS** -

**Compliance Requirement:** At the close of the project, the applicant must have completed all actions described in the approved project scope of work.

**Suggested Audit Procedure:** Perform review of final inspection forms prepared by DHS&EM at the completion of a project to determine if an inspection was made (when required) and the project scope of work completed.
